**Trump creates a Twitter 'covfefe'**

A midnight tweet from President Donald Trump set the global social media scene ablaze as thousands of people scrambled to figure out what the word 'covfefe' meant. "Despite the constant negative press covfefe," the President tweeted at 12:06 a.m. in the American capital on Wednesday. He deleted it at 5. 50 a.m., and by then it was retweeted more than 100,000 times, making it the career best for Mr. Trump who routinely announces policy and snipes at critics at home and abroad in less than 140 characters. For those who parse broken sentences for clues on what America might do in Afghanistan or about the Paris climate agreement it was a sleepless night, but the President appeared to have relished the wild goose chase that he set this trolls on. "Who can figure out the true meaning of 'covfefe' ??? Enjoy!," he tweeted at 6.09 a.m.

**Kingfisher House auction fails**

Lenders' attempt to auction Kingfisher House in Mumbai — the headquarters of Kingfisher Airlines — failed for the fifth time despite a further cut in reserve price. The property, which was first put on the block in March 2016, with a reserve price of Rs. 150 crore, saw banks lowering the price after failing to attract any buyers. This time, the reserve price was reduced by 10% to Rs. 93.5 crore as compared with the previous auction held in March. In the last 15 months, the reserve price was reduced by 37.66% but failed to attract buyers. The 17,000 square-foot property is located in the Ville Parle area, near the domestic airport.

**AAP says it wants GST capped at 10%**

The Delhi Assembly on Wednesday passed the State Goods and Services Tax (GST) Bill, taking the city a step closer to the July 1 roll-out of GST, but adopted a resolution against the higher tax slabs proposed under the new regime. No impact on rollout. The Delhi Goods and Services Tax Bill, 2017, was passed by the Aam Aadmi Party-led Delhi Assembly at a one-day session called for the purpose, even as MLAs raised concerns over the 18% and 28% tax slabs proposed by the GST Council. While passing the Bill by half the State Assemblies in the country is required for the implementation of GST, the resolution, which asks for a 10% cap for GST rates, was the "sense of the House" and would not have any impact on the rollout.
